【3】 Food Delivery Is Not an Easy Job

There is more and more food delivery now. We can see a lot of delivery people on the road. It is convenient for us. When we don't want to go out, we can use an App to order the meal. However, it is not an easy job. Delivery people have to deliver the food on time, or customers may get mad. If it happens, they will leave bad comments on the App. Then the boss would deduct delivery people's money.

Three months ago, I became one of them. One day, it was rainy. People didn't want to go out, so we got a lot of orders. It took us more time to deliver the food on a rainy day. Some people got angry because we were late. However, there were other things making us late for the next delivery. It was not our fault!

We don't want to be late, so we ride fast. Some of us even have car accidents. No one wants to make people angry and get bad comments. If people can be friendlier to us, maybe some accidents will not happen. However, many of them don't understand it is not an easy job. They care about their food.

One night, the man was walking outside, looking up at the stars. He got *lost in his thoughts*, and suddenly, he fell into a hole.

It began to rain and the hole filled with mud. The old man tried to escape, but he sank deeper and couldn't move. He thought he might die. He cried for help until some people heard his cries and came to save him. As they did, one of them said, "You spend your whole life looking up and thinking about the future. 【8】 Online Shopping

The Internet has changed the way we shop. More and more people buy things online. Ruby and her friends are talking about what they think of online shopping.

Ruby:

I love online shopping. It's convenient. Online stores are open all the time. I can do my shopping comfortably at home anytime, even at 2 a.m. And I don't need to stand in line, waiting to pay.

Albert:

I still like to go to physical stores. There I can see the real thing, touch, feel, and sometimes even try it before buying it. The pictures on the computer screen sometimes cheat. I once ordered a shirt online, and when I got it, I found it did not feel like what I thought it would do.

George:

I like online shopping. There are details about the products. Better yet, I can read recensiones of the product I'm interested in. If many people say it's good, then it won't be bad. But if some talk about its bad side, I may not buy it.

Sarah:

I never shop online. I'm not sure if it's safe. What if I pay the money but don't get the product?

Ray:

I shop online often. It's easier to compare the products and their prices. I don't need to move from store to store.

Anna:

I feel more comfortable shopping online. There's no salesperson pushing me to buy things I don't really need.
