Bullying is when someone makes you feel bad or hurts you again and again. Many kids think of bullying as hitting or pushing, but it is more than that. If someone is mean to you, ignore him or her and show that you don't care about it at all. When the bullies see that you don't care about it, they may feel bored and then stop bullying. If you really don't know how to do it, you can talk to your parents or teachers. They may help you.

If you are a teacher or a parent and students come to tell you that someone bullies them, please make them feel safe and listen to them without judgment. Try to help them as much as you can. We all have a job to stop bullying.

Tom: You know I'm good at playing online games, right? What if I can work as a gamer? Then, I can make a lot of money by playing online games. I have to upload clips of me playing games quite often, say, every week.

Emma: Hold on a second. Why do people want to watch you play games? Why don't they play games themselves?

Tom: Don't you know it's becoming popular? People enjoy watching us gamers play; they love listening to our talk during the game. At the same time, they learn something.

Emma: Are you kidding? What on earth can they learn from your trash talk?

Tom: Come on. Our talk is more than trash talk. They learn skills from us. My tricks can be useful if they want to win the games. In a way, I am their teacher of gaming. I can be the next KOL!

【C】 To Sit or Not to Sit

Dear Diary,

This afternoon I played basketball with my friends after school. My ankles were really hurt while I was going to jump. I couldn't even walk at that time. When I took the MRT home, I still didn't feel well.

It was rush hour. The MRT was full of people. People were pushing each other to get on the MRT. I couldn't find any seat. Later, I found nobody sat on the priority seat. I sat on it to take a rest, but other passengers looked at me. They thought about why I could sit on the special seat. Then, a man was very angry and shouted at me. He told me "You shouldn't sit on it because this is for people in need, and you looked like a young, strong boy." I felt very sad. I stood up slowly and rolled up my pants. All the other passengers could see my hurt ankles clearly at this moment. They became quiet, and I sat back again.

I heard a lot but never thought this would happen to me. The priority seats are for people with special needs. It is a good thing to give the seats to those people. But sometimes, when people sit on the priority seats, other passengers would say they don't think of others and ask them to stand up. I don't know why now more people believe in what they see but ignore the real facts. Do people do this only because those people look normal? But maybe they need the seats more than you think. To sit or not to sit, that is the question.

(B) Sometimes things are not as they appear.

- (B) We can shout at anyone if we think we are right.
- (C) We should not judge people if we don't know them.
- (D) We can sit on the priority seats even though we are strong and healthy.

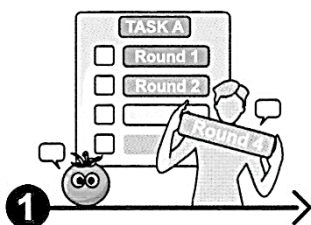

47. What does normal mean in the reading?

- (A) The same as other people.
- (B) Different from other people.
- (C) Very strange.
- (D) Not healthy.

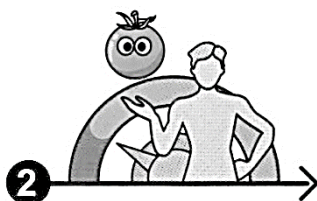

【D】The Pomodoro Technique

Do you ever have problems getting all your work done? If you do, you should try the Pomodoro Technique.

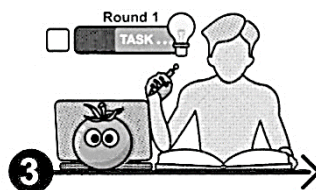

"Pomodoro" means tomato in Italian. The Pomodoro Technique was created by an Italian, Francisco Cirillo, who used a tomato clock to count time when he was studying. Here is how the technique works:

1 Write down what you are going to do.

2 Get a timer.

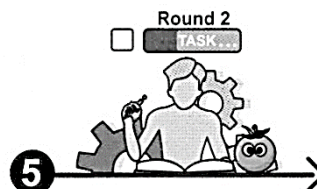

3 Study for 25 minutes. This is called one "pomodoro." Set a timer.

4 Stop studying when the timer goes off. Take a five-minute break.

Note:

You should set a timer not only for the pomodoros but also for the breaks. That way, you won't stop for too long.

5 Start another pomodoro.

6 After four pomodoros, take a longer break, 15 to 30 minutes.

Note:

The breaks help you focus and not feel tired.

【E】 To Experience the Joy of Buying Products Without Going out

Since the epidemic in Taiwan in May in 2021 became more serious, people have seldom gone out to eat in restaurants. Food can only be taken out from the restaurants or sent to customers' homes. Business is getting worse and worse. Many small restaurants close their doors. What can small shops do to face the epidemic?

In fact, in 2020, the American Restaurant Association said the restaurants lost 2.5 million jobs. Reading books in a small corner of a bookstore, drinking wine at a bar, and shopping in a store are all the things that can't be done in the daily lives of Oklahoma City and that makes businesses close their doors.

"The epidemic makes us lose the right of shopping together," said Layne Ferguson, who is the co-founder of Capital Ice Cream in America. He works with three other founders to choose a way for people to experience the joy of buying their favorite products at home without going out. They called on more than a dozen businesses to work together to offer several special products and make "City Boxes". They are pizzerias, bookstores, coffee shops, beverage shops, planting shops, and bakeries. For example, "Romantic Date Night" has drinks, pizza, ice cream buckets and candles. People can buy more than one business product at a time through Internet. More than 1,500 gift boxes were sold in the first month. Foreign experience may allow Taiwan's small shops to see hope and chances.

51. What is the main idea of the reading?

- (A) Getting experiences from America helps small shops in Taiwan learn the way of living.
- (B) People can go out freely to buy what they want during the epidemic.
- (C) People in Oklahoma City do business successfully all year round.
- (D) It's not difficult for all shops in the USA to do business well.

52. What are "City Boxes" ?

- (A) Boxes of many kinds of ice cream.
- (B) Many packages of foods.
- (C) Foods for people in the same city.
- (D) Gift Boxes ordered on the Internet.

53. Which of the four choices below is designed for making City Box?

The best place for shopping is in Big Box. You can choose anything you want here on the Internet. We try to make wonderful gift boxes for you.

We've worked with dozens of small businesses in the city. We get their good products to make boxes that help you do some shopping without going out.

We have many small potted plants. You can choose four or five you like most online. We would like to send them to your home.

We have delicious food and coffee in our restaurants. We also sell many kinds of beautiful cups and other gifts.

【F】 "NFT," the Next Big Thing in the Digital World

If you are interested in artwork, you may hear of NFTs. Although NFTs have been around since 2014, they become a popular way to buy and sell digital artwork now. And after the first-ever NFT artwork called "Everydays: The First 5,000 Days" was sold for \$69.4 million, NFTs have quickly swept through the world of digital art.

There has long been a problem for artists to make digital works of art because they can be copied easily. And this makes it hard for the artists to sell their works. However, NFTs can help fix the problem. NFTs stand for non-fungible tokens. An NFT uses the technology of blockchain to make something that is one of a kind in the digital world. But unlike a painting, which can be placed in the owner's home, an NFT is a digital certificate saying you own the artwork. While there may be many copies of the painting in the world, only the person who buys the NFT gets the certificate. Only he has it. Nobody else in the world can have it.

It's not just art that's being sold with NFTs. Some bands are making music with NFTs. Besides, NFTs can be anything like drawings, photos, and videos. Many people believe that NFTs will be the next big thing in the digital world.

54. What does this mean in the reading?

- (A) Everyone can make works of art with NFTs.
- (B) The painting can be put in the owner's home.
- (C) People can make copies of the digital art.
- (D) The digital art can be bought and sold on the Internet.

- b. The problem digital art has.
- c. Different kinds of works made with NFTs.

In what order does the writer talk about his points?
