Jerry's Science Report

Jerry wrote a report for his science class. Here are his notes.

July 4th, 2020

I filled a glass with cold water and put a fresh egg in it. The egg sank and then lay on its side on the bottom.

July 11th, 2020

The egg is already one week old. It still stays on the bottom, but it is standing on one end.

July 18th, 2020

The egg is two weeks old. It is no longer on the bottom. It stands upright in the water.

August 8th, 2020

The egg is already more than a month old. It came to the surface of the water. I took the egg out and cracked it. Yuck! It smelled really bad.

Blood Types

There are four blood types of the people: A, B, O and AB. People of different blood types have different personalities. People of blood type A are always on time. They hate to come late. They are nice to people because they want everyone around them to be happy. But they don't like to be the first ones to do new things. People of blood type B feel sad often, but they are also nice to people. If you have a date with a blood type B, try not to come late. If you do, they will be angry. People of blood type O work hard and love to win. They are not afraid of difficult jobs. To them, friendship is the most important. People of blood type AB like reading at quiet places. They always have new ideas, but they are hard to understand sometimes.
